Patient Financial Policy

Thank you for choosing Graystone Eye for your eye care needs. Below is our financial policy, which we ask that you read and sign prior to receiving services.

**PATIENT CO-PAY IS DUE AT THE TIME OF SERVICE.**

**Patient Responsibility**
As a patient of Graystone Eye, you are financially responsible for any services not covered by your health insurance (which includes co-pays, co-insurance, deductibles). These amounts will be collected the day of your appointment. We accept Cash, Check, Visa, Mastercard, Discover, American Express, Care Credit and all Health Savings Account debit cards.

- Some insurance plans, including Medicare, do not cover eye refractions (measurement taken to determine the need for glasses or change in prescription).
- If you currently wear or wish to start wearing contacts, there is a separate charge for the contact lens fitting fee which must be paid at time of service.

In order to bill your insurance company, we must have your current insurance card and billing information. We will verify this information at each visit.

If you have a scheduled appointment and have an outstanding balance, you will be expected to pay your balance or establish payment arrangements with our billing department before being seen. Non-payment of outstanding balances could result in being discharged from our practice.

Many insurance plans require a referral/authorization for services provided. You will need to obtain this referral/authorization prior to being seen in our office.

**Minor Patients**
For all services provided to minor patients, the guarantor of the patient is responsible for payment.

I certify that the information given by me in applying for payment under my insurance contract is correct. I authorize insurance benefits to be made on my behalf to Graystone Eye for any services provided. I authorize any holder of medical information about me to be released to my insurance carrier and it’s agents to determine benefits payable for related services.

I also authorize Graystone Eye to access my medication history.
